

FAASTeam presents:

# **Good Maintenance Techniques for the Light Sport and Experimental Aircraft**

Yup, you built your aircraft from a box of aluminum. Who knows more about YOUR airplane than you? Probably no one, but do you know how to properly maintain your aircraft? All the hidden detail in maintenance? the little things like changing a tire, packing wheel bearings, engine issues, etc. come and learn from the local experts in the maintenance field. All of these good maintenance tips hold true in your certificated aircraft also. So no matter if you fly an EAB, LSA or a Cessna 172, good aircraft maintenance techniques still apply!

**Directions:** From the east, take I-90 to Exit 289 (Pines). Go left (south) to Sprague Ave, turn right and Darcy's is just on left side of the street in the University City Shopping Center. From the west, take Sprague Ave to where it splits and becomes Appleway and Darcy's/University City Shopping Center is on the left just before University Ave. Or, take I-90 to Exit 289 (Pines), turn right (south), go to Sprague Ave, turn right and Darcy's will be on the left in the shopping center.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.

## **Event Details**

**Wed, Sep 17, 2014 - 19:00 PDT**

**Darcy's**

10502 E Sprague Ave

Spokane, WA 99206
